

Animal sudoku and odd one out

1. Every row, column and box has each animal once — draw the missing ones. 2. In each row circle the picture that doesn't belong.

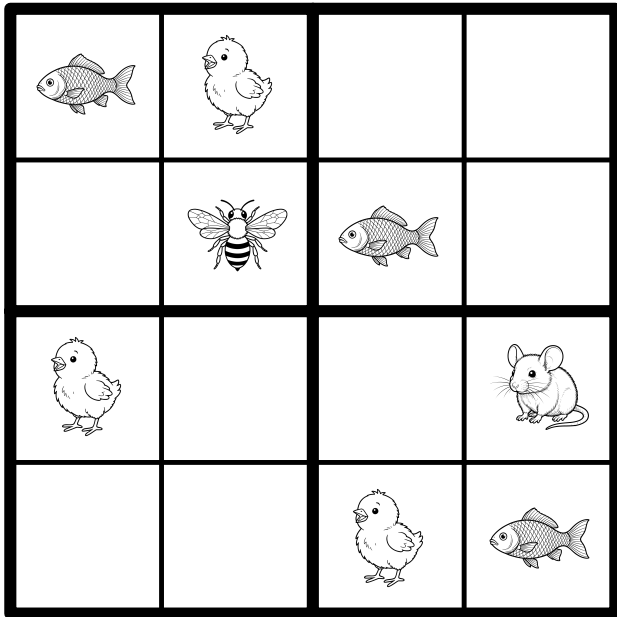

Recommended age: 4–5 years • puzzles

Name _____

Date _____

1. Animal sudoku

Every row, column and box has each animal once. Draw the missing ones.

fish

chick

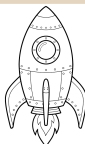

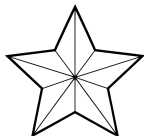

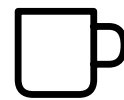

mouse

bee

2. Which one doesn't belong? Circle it.

Tip for parents: Let the child say why a picture doesn't belong – some rows allow more than one answer, and the “other” answer is right too if they can explain it.
