

# Christmas dot-to-dot: star 1-10

Join the dots from 1 to 10. From 10 go back to 1. What is it? Color it.

Recommended age: 4-5 years · christmas

Name .....

Date .....

**Tip for parents:** Before starting, let the child find and point to all the numbers in order. No ruler – a freehand line is the goal. The finished star can be cut out and hung in a window.

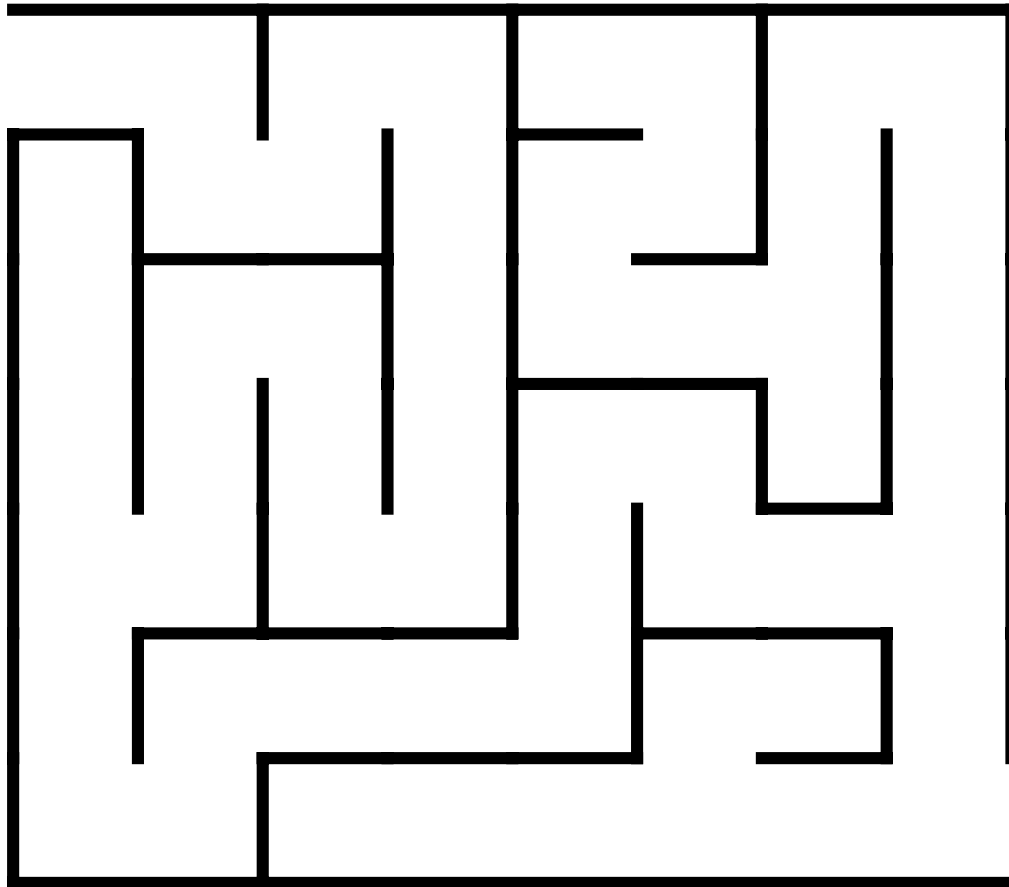

# Christmas maze: reindeer and sled

Help the reindeer find the sled. Look first where the way goes, then draw. At a dead end, go back.

Recommended age: 4–5 years • christmas

Name .....

Date .....

The reindeer is looking for the sled. Look first where the way goes, then draw.

**Tip for parents:** Praise the stopping and looking, not the speed. If the child wanders for long, suggest starting from the sled – going backwards is often easier.

# Christmas counting 1-5

Count the pictures in each row. Circle the number that tells how many there are.

**Tip for parents:** Have the child put a finger on each picture and say the number out loud. After a mistake, don't count for them: say "try once more and point as you go".

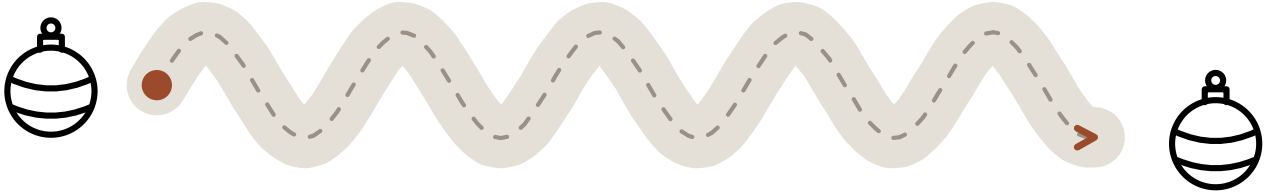

# Christmas garlands to trace

Trace the four garlands for the tree. Start at the brown dot and try to finish each garland without lifting the crayon.

Recommended age: 4–5 years • christmas

Name .....

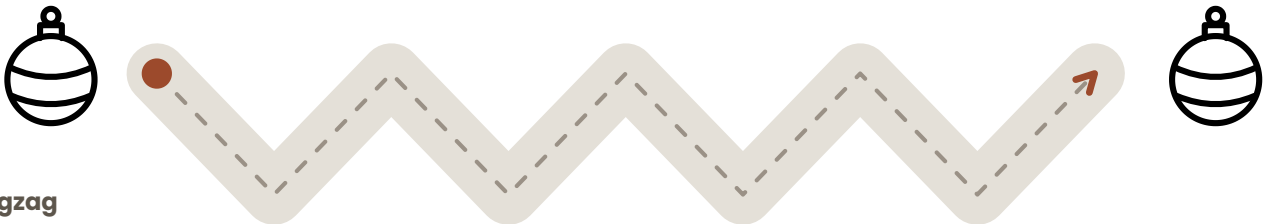

Date .....

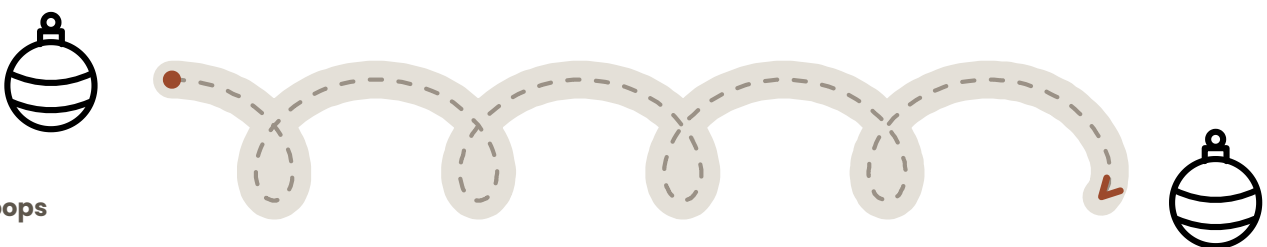

Little waves

Bowls

Zigzag

Loops

**Tip for parents:** The loops are the hardest, so leave them for last. A rhythm helps (“up, around, down”). Anyone who wants more can draw a garland of their own under each one.
