

Count and circle the number 6–10

Count the pictures in the box. The top row always has five. Circle the number that tells how many there are altogether.

Recommended age: 5–6 years · counting

Name _____

Date _____

Tip for parents: Try showing the shortcut: “Five on top. Five, six, seven.” If your child would rather count from one, that is right too. Answers: 7, 10, 6, 9, 8.

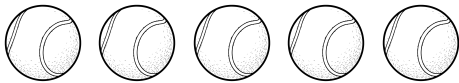

Count and write the number 1-10

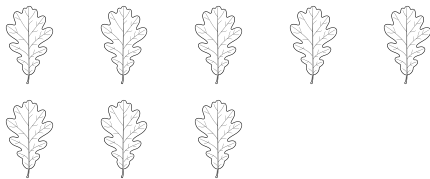

Count the pictures in each row and write the number in the box next to them. If you forget what a number looks like, check a model.

Recommended age: 5-6 years · counting

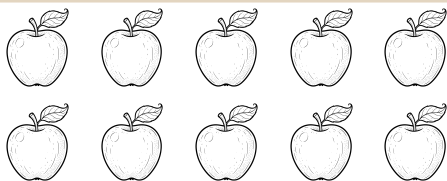

Name _____

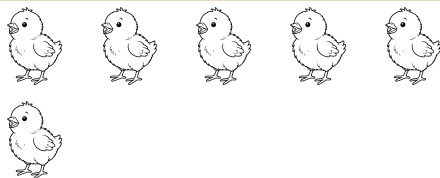

Date _____

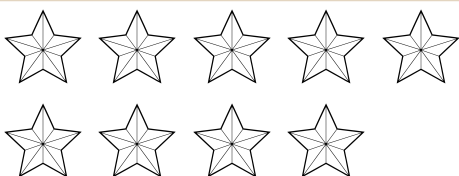

Tip for parents: Keep the "Numbers 1-10" sheet nearby as a crib – copying a numeral from a model is fine. Answers: 5, 8, 3, 10, 6, 9. Ten has two digits; mention that first.

Ten frames: color the number

Each frame has ten boxes: five on top, five below. Color as many boxes as the number says.
Start at the top left.

Recommended age: 5–6 years · counting

7

10

5

9

6

Tip for parents: Color left to right, top row first. Ask: “How many boxes stayed white?” That is the start of adding to ten. The sheet can be reused: slip it into a plastic sleeve and use buttons.
