

Match the pictures

The same pictures are on the left and on the right, but mixed up. Find the pairs and join them with a line from dot to dot.

Recommended age: 3–4 years · dot-to-dot

Name _____

Date _____

Tip for parents: Name the pictures out loud together ("apple... where is the other apple?"). The line need not be straight; what matters is arriving from dot to dot.

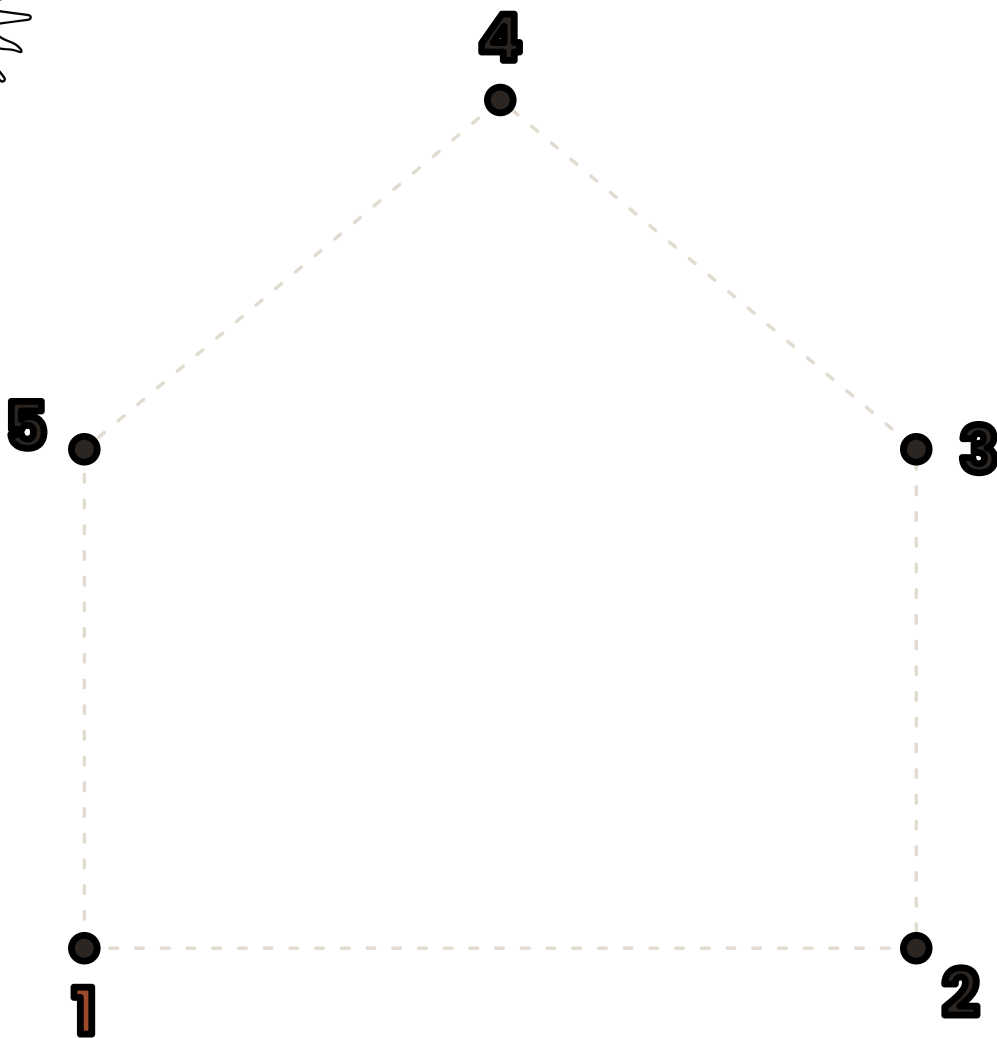

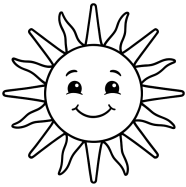

Dot-to-dot 1-5: house

Join the dots in order 1, 2, 3, 4, 5 and then back to 1. A house appears. Colour it and draw who lives inside.

Recommended age: 3-4 years · dot-to-dot

Name _____

Date _____

Tip for parents: Read the numbers yourself and point where to go. Count out loud. The grey dotted line is a hint; if the child doesn't need it, cover it with a finger.

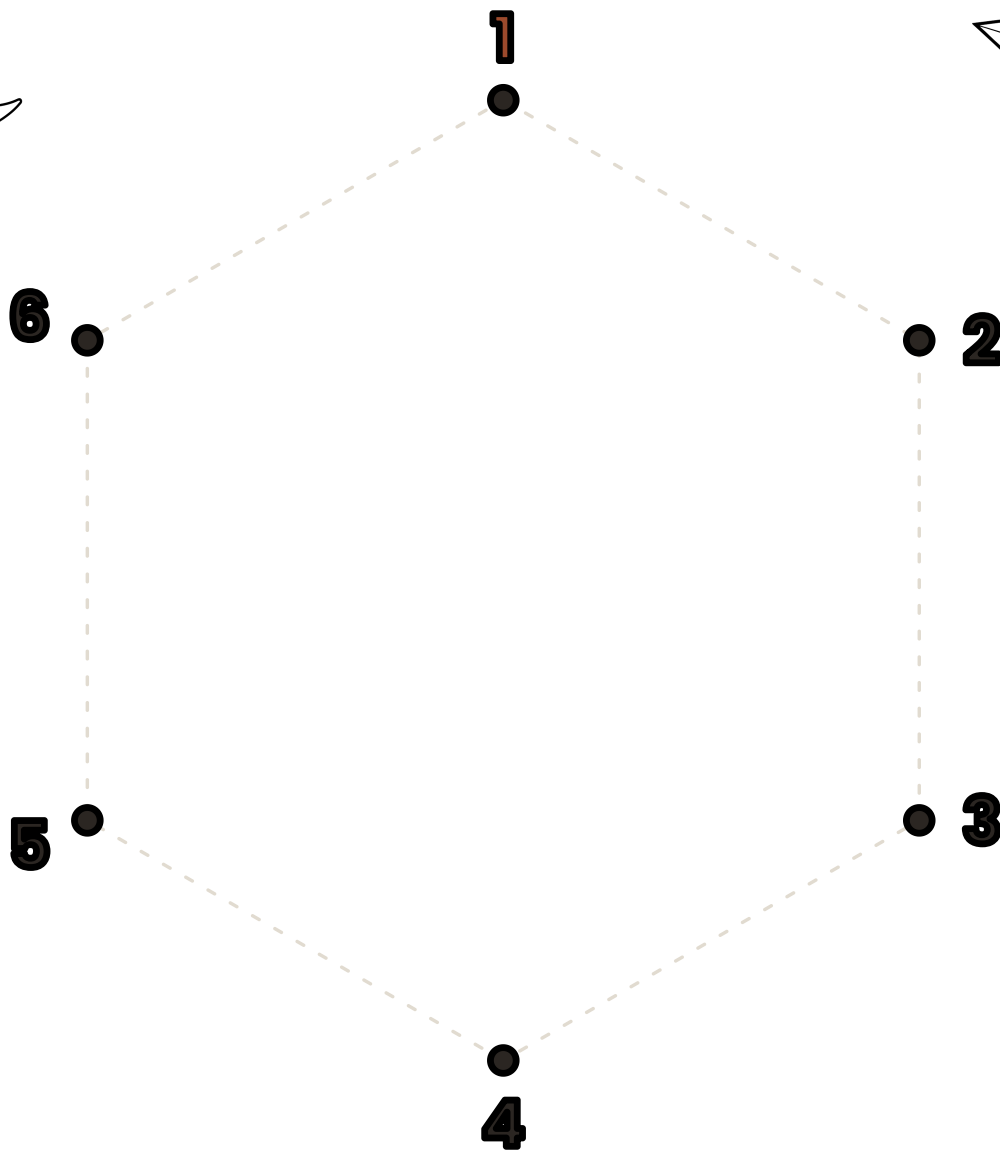

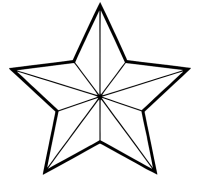

Dot-to-dot 1-6: gem

Join the dots from 1 to 6 and 6 back to 1. A gem appears. Colour it so it sparkles.

Recommended age: 3-4 years · dot-to-dot

Name _____

Date _____

Tip for parents: Once the child manages 1-5, this is the natural next step. Say out loud “after five comes six” – once is enough.

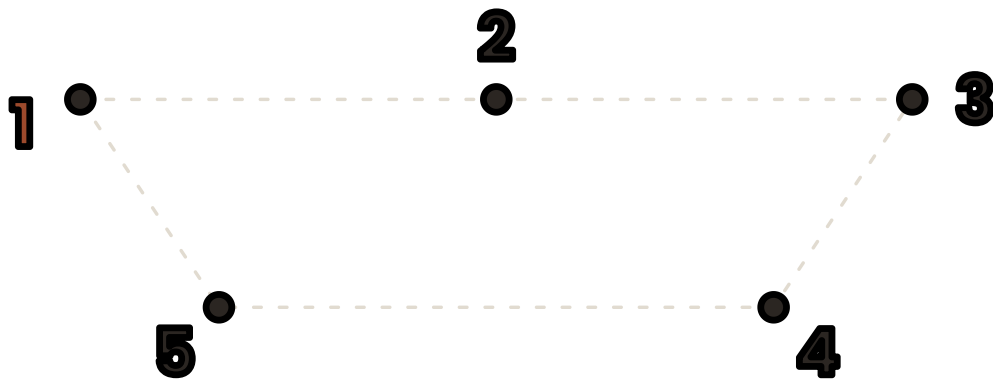

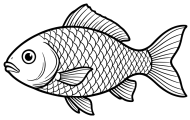

Dot-to-dot 1-5: boat

Join the dots from 1 to 5 and 5 back to 1. A boat appears. Colour the sail and draw friends for the fish.

Recommended age: 3-4 years · dot-to-dot

Name _____

Date _____

Tip for parents: Let the child guess first what it will be ("a boat!") – motivation grows when they know what is coming. The waves can be traced with a finger as a warm-up.

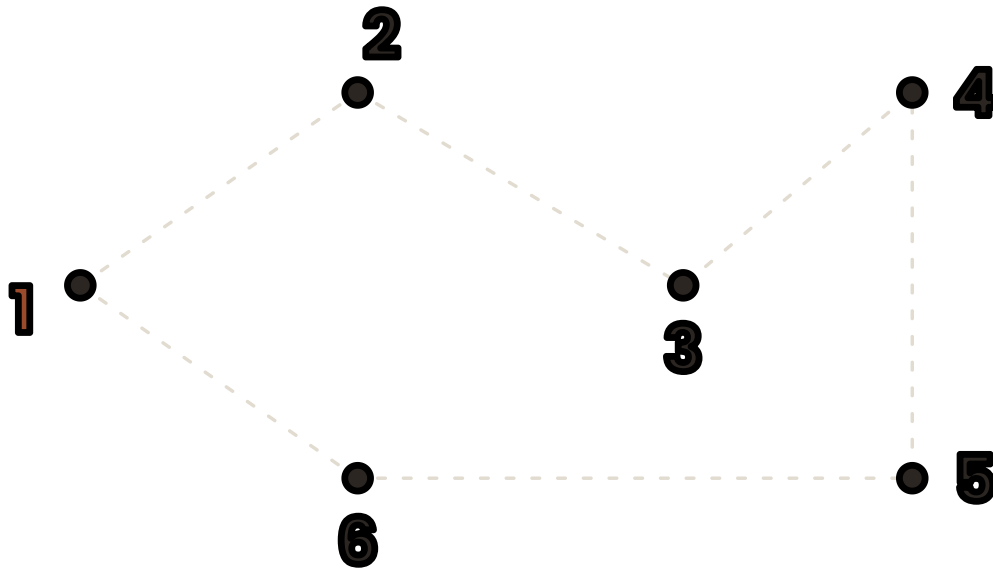

Dot-to-dot 1-6: fish

Join the dots from 1 to 6 and 6 back to 1. A fish appears. Colour it and draw some friends.

Recommended age: 3-4 years · dot-to-dot

Name _____

Date _____

Tip for parents: Before starting, ask what it might be – the eye and bubbles give a clue. Let the child trace the waves with a finger, then a crayon.

Match what belongs together

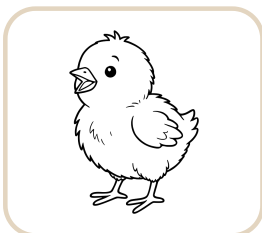

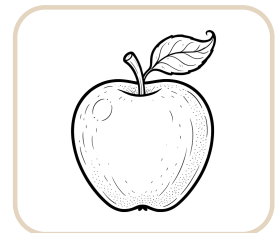

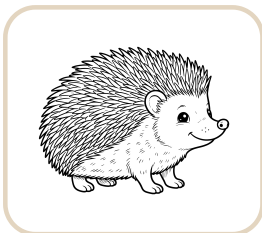

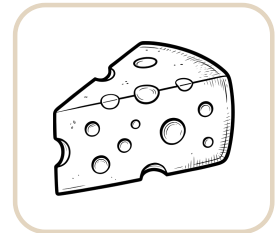

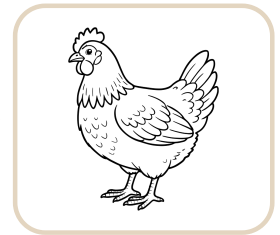

What belongs together? Join dot to dot: the mouse and the cheese, the bee and the flower, the hedgehog and the apple, the chick and its mum.

Recommended age: 3–4 years · dot-to-dot

Name _____

Date _____

What belongs together? Join them dot to dot.

Tip for parents: Ask “what does the mouse like?” and let the child answer before drawing. Then have them say the whole sentence – the sheet turns into a conversation.

Join the dots: shapes

Join the dots. Which shape appeared? Then colour it and count how many dots each shape has.

Recommended age: 3–4 years · dot-to-dot

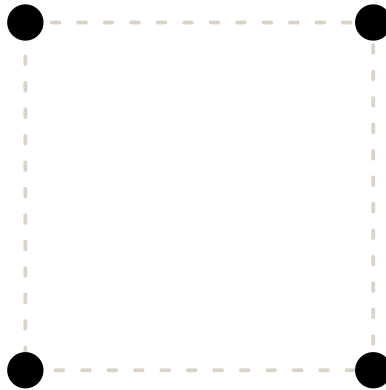

Name _____

Date _____

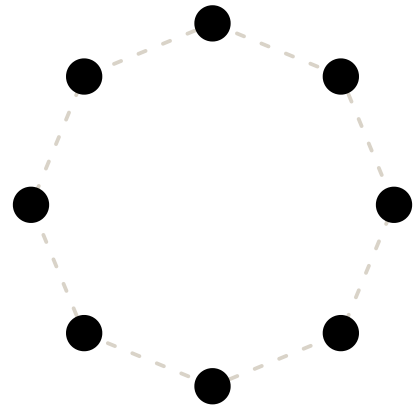

Join the dots. Which shape appeared? Then colour it.

triangle

square

circle

How many dots does each shape have? Count them out loud.

Tip for parents: Name the shape after it is drawn ("what is it? ... a square!"). Then hunt for shapes at home: a window is a square, a plate a circle, a roof a triangle.
