

Shadows and odd one out

1. Every picture has its shadow — join them with a line. 2. In each row one picture doesn't belong. Circle it.

Recommended age: 3–4 years · puzzles

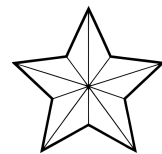

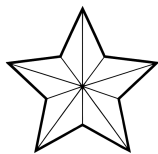

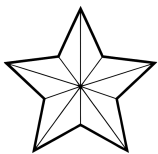

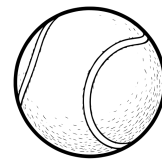

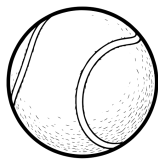

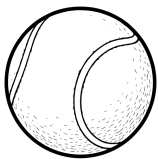

Name _____

Date _____

1. Match the shadow

2. Which one doesn't belong? Circle it.

Tip for parents: Let the child say why the picture doesn't belong ("that's a car and the others are balls"). The answer in words matters as much as the circle.

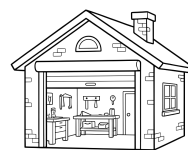

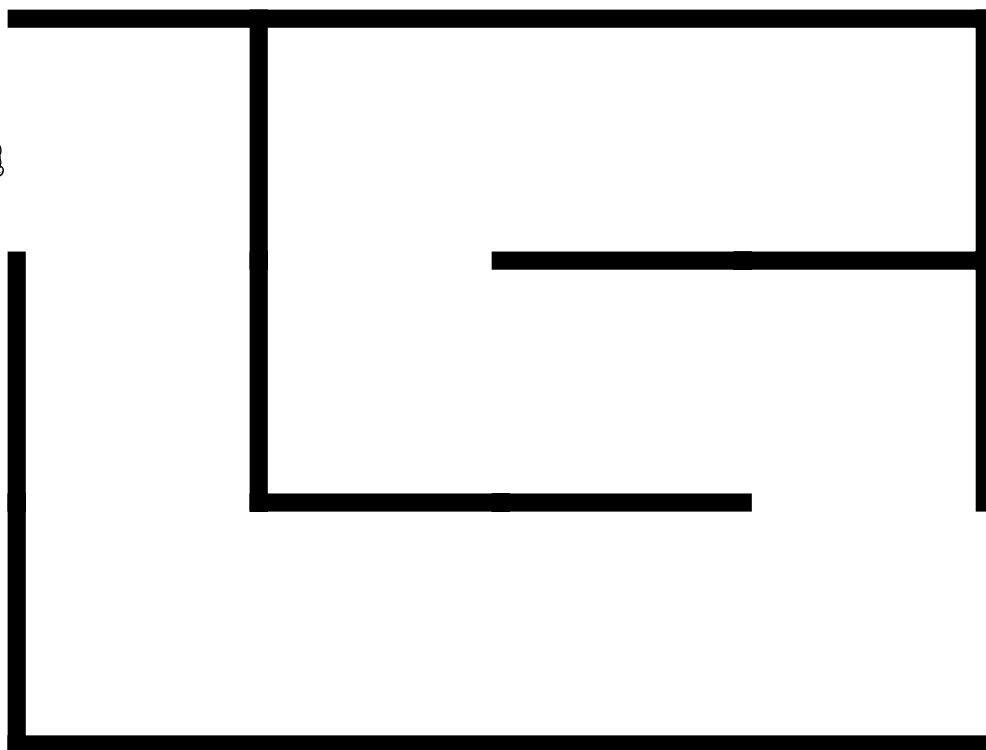

Maze: car and garage

The car is looking for the garage. Drive your pencil along the corridor and don't cross the black lines. Find the way with your finger first.

Recommended age: 3–4 years · puzzles

Name

Date _____

The car is looking for the garage. Trace the way with a finger first, then a pencil.

Tip for parents: Try saying first where the car will probably go, then check with a finger. When the child manages the maze twice in a row, it's time for the harder ones (ages 4–5).

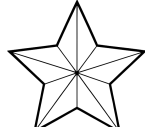

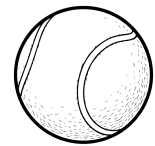

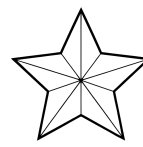

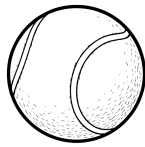

Find two the same

In every row two pictures are the same. Find them and circle them.

Recommended age: 3–4 years · puzzles

Name _____

Date _____

In every row two pictures are the same. Find them and circle them.

Tip for parents: Guide the child's finger along the row left to right and name each picture. The pair then "announces itself".

Sort by size

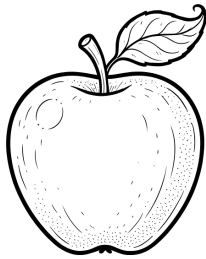

1. Circle the biggest apple. 2. Circle the smallest ball. 3. Join the cars with a line from the smallest to the biggest.

Recommended age: 3–4 years · puzzles

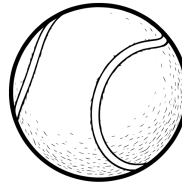

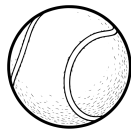

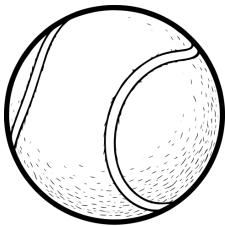

Name _____

Date _____

Circle the biggest apple.

Circle the smallest ball.

Join the cars with a line from the smallest to the biggest.

Tip for parents: Use the words out loud: "this is the biggest, this the smallest". Play the third task first with real toy cars or spoons on the table.

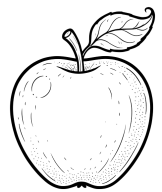

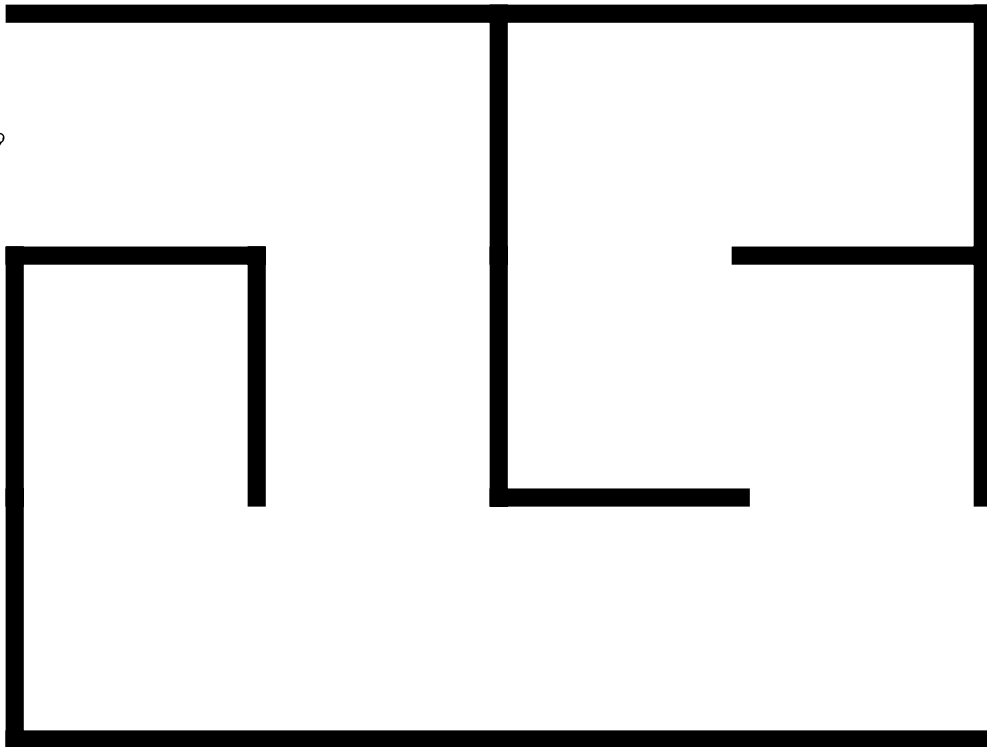

Maze: hedgehog and apple

The hedgehog wants the apple. Draw along the corridor without crossing the black lines. Find the way with a finger first.

Recommended age: 3–4 years · puzzles

Name _____

Date _____

The hedgehog wants the apple. Trace the way with a finger first, then a pencil.

Tip for parents: Ask which way the hedgehog will go and let the child point. Once all three easy mazes are done without mistakes, move to the ages 4–5 version.

Spot 3 differences: boat

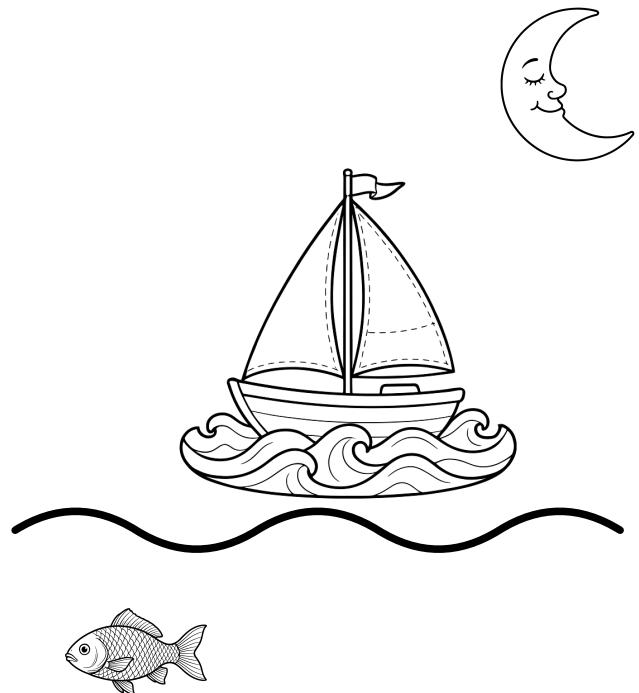

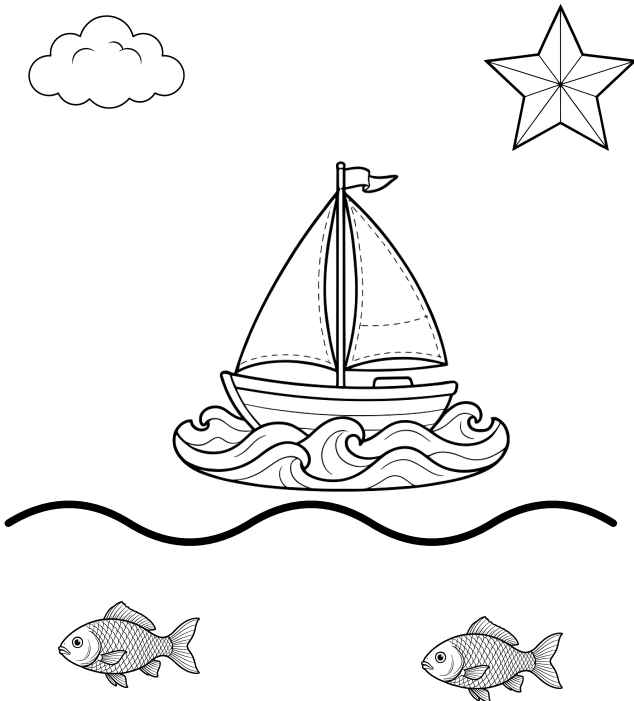

The pictures look the same but differ in 3 things. Find them and circle them. Then colour the pictures.

Recommended age: 3–4 years · puzzles

Name _____

Date _____

The pictures look the same but differ in 3 things. Find and circle them.

Then colour the pictures.

Tip for parents: Point with a finger: “here is a cloud – and here?” Naming each thing helps. When the child finds a difference, let them say what is missing.
