

Hedgehog goes home

The hedgehog is going home. Drive your pencil along the grey road from the hedgehog to the house, left to right. Then color the fallen leaves.

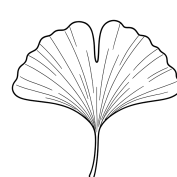

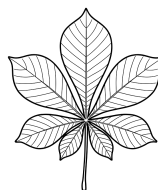

Recommended age: 3–4 years · pre-writing

Name _____

Date _____

Colour the fallen leaves — each one a different autumn colour.

Tip for parents: Act out the hedgehog before drawing: how it rolls, how it walks through the leaves. Whole-body movement before hand movement is the best warm-up for three-year-olds. The sheet also works as an autumn craft — the child can glue real leaves instead of coloring.
